

LED A19 Dusk-To-Dawn Bulb

Built-in Photocell Sensor

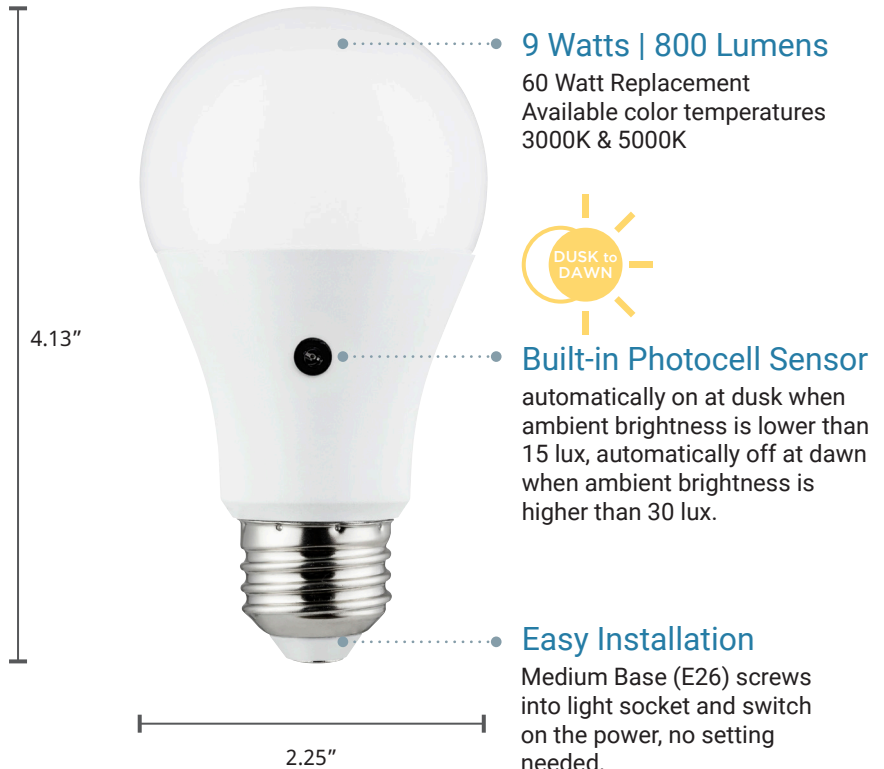

New
Arrival

Suitable for home, street lamp, patio, porch, front door

LED A19 dusk-to-dawn bulbs are equipped with a built-in light sensor that turns the light on automatically when the sun goes down. Simply keep your light switch on and let the sensor do the rest. This bulb is non-dimmable and suitable for indoor or outdoor use. Recommended keeping the Bulbs distanced from each other at least 2 meter/6.6 ft to avoid interference for best performance.

Note: Recommended keeping the Bulbs distanced from each other at least 2 meter/6.6 ft to avoid interference for best performance.
